Steel Structure Requirements

Revised: September 2021

Required Information for Steel Structure Building Permit Applications

In order to receive a Building Permit for a steel structure, it is the responsibility of the owner or builder to ensure that the following documents are submitted:

1. From the Structural Engineer responsible for the structure:
 - a. Certificate of Design and Manufacturing Conformance;
 - b. Schedule B;
 - c. Copy of Certificate of Insurance;
 - d. Report on Professional Insurance; and
 - e. Two (2) sets of Engineers sealed drawings (scale of 1:50 or ¼" = 1'-0").

2. From the Structural Engineer responsible for the Field Review and Foundation:
 - f. Schedule B;
 - g. Copy of Certificate of Insurance;
 - h. Report on Professional Insurance; and
 - i. Two (2) sets of Engineers sealed drawings (scale of 1:50 or ¼" = 1'-0").

These requirements are in addition to the standard building permit application submission requirements.
