JOINT EMERGENCY RELEASE

FOR IMMEDIATE RELEASE

Press Release #12

September 9, 2025 – 1130 hrs

EVACUATION ALERTS RESCINDED FOR NOBLE CANYON WILDFIRE

The EVACUATION ALERT previously put in place for the Lavington and RDNO Electoral Area D areas due to the Noble Canyon Wildfire (K41979) is **RESCINDED for all areas**.

This decision follows the recommendation of BC Wildfire Services and emergency management officials, who have confirmed that the risk from the Noble Canyon Fire has significantly decreased, and it is now safe for residents to return to normal activities.

We would like to extend deepest gratitude to BC Wildfire Service, the Red Cross, our neighbouring local governments, the Coldstream and Lavington Fire Halls, and all supporting emergency services for their tireless efforts in protecting our community. Their expertise, commitment, and rapid response played a critical role in ensuring public safety.

We also want to sincerely thank residents and local businesses for their patience, preparedness, and cooperation throughout the duration of the alert. By staying informed and following directions from emergency officials, you helped contribute to a safe and effective response.

The District also thanks the Regional District of the North Okanagan for their support in releasing emergency orders and alerts through the Alertable App on its behalf when it was faced with internal technical issues. The timely support from the Alertable team must also be acknowledged, as it was greatly appreciated throughout the emergency event.

Residents are encouraged to [sign up](#) to receive information through the emergency notification system - Alertable. Find out more at www.coldstream.ca/emergency-notifications or www.rdno.ca/alertable.

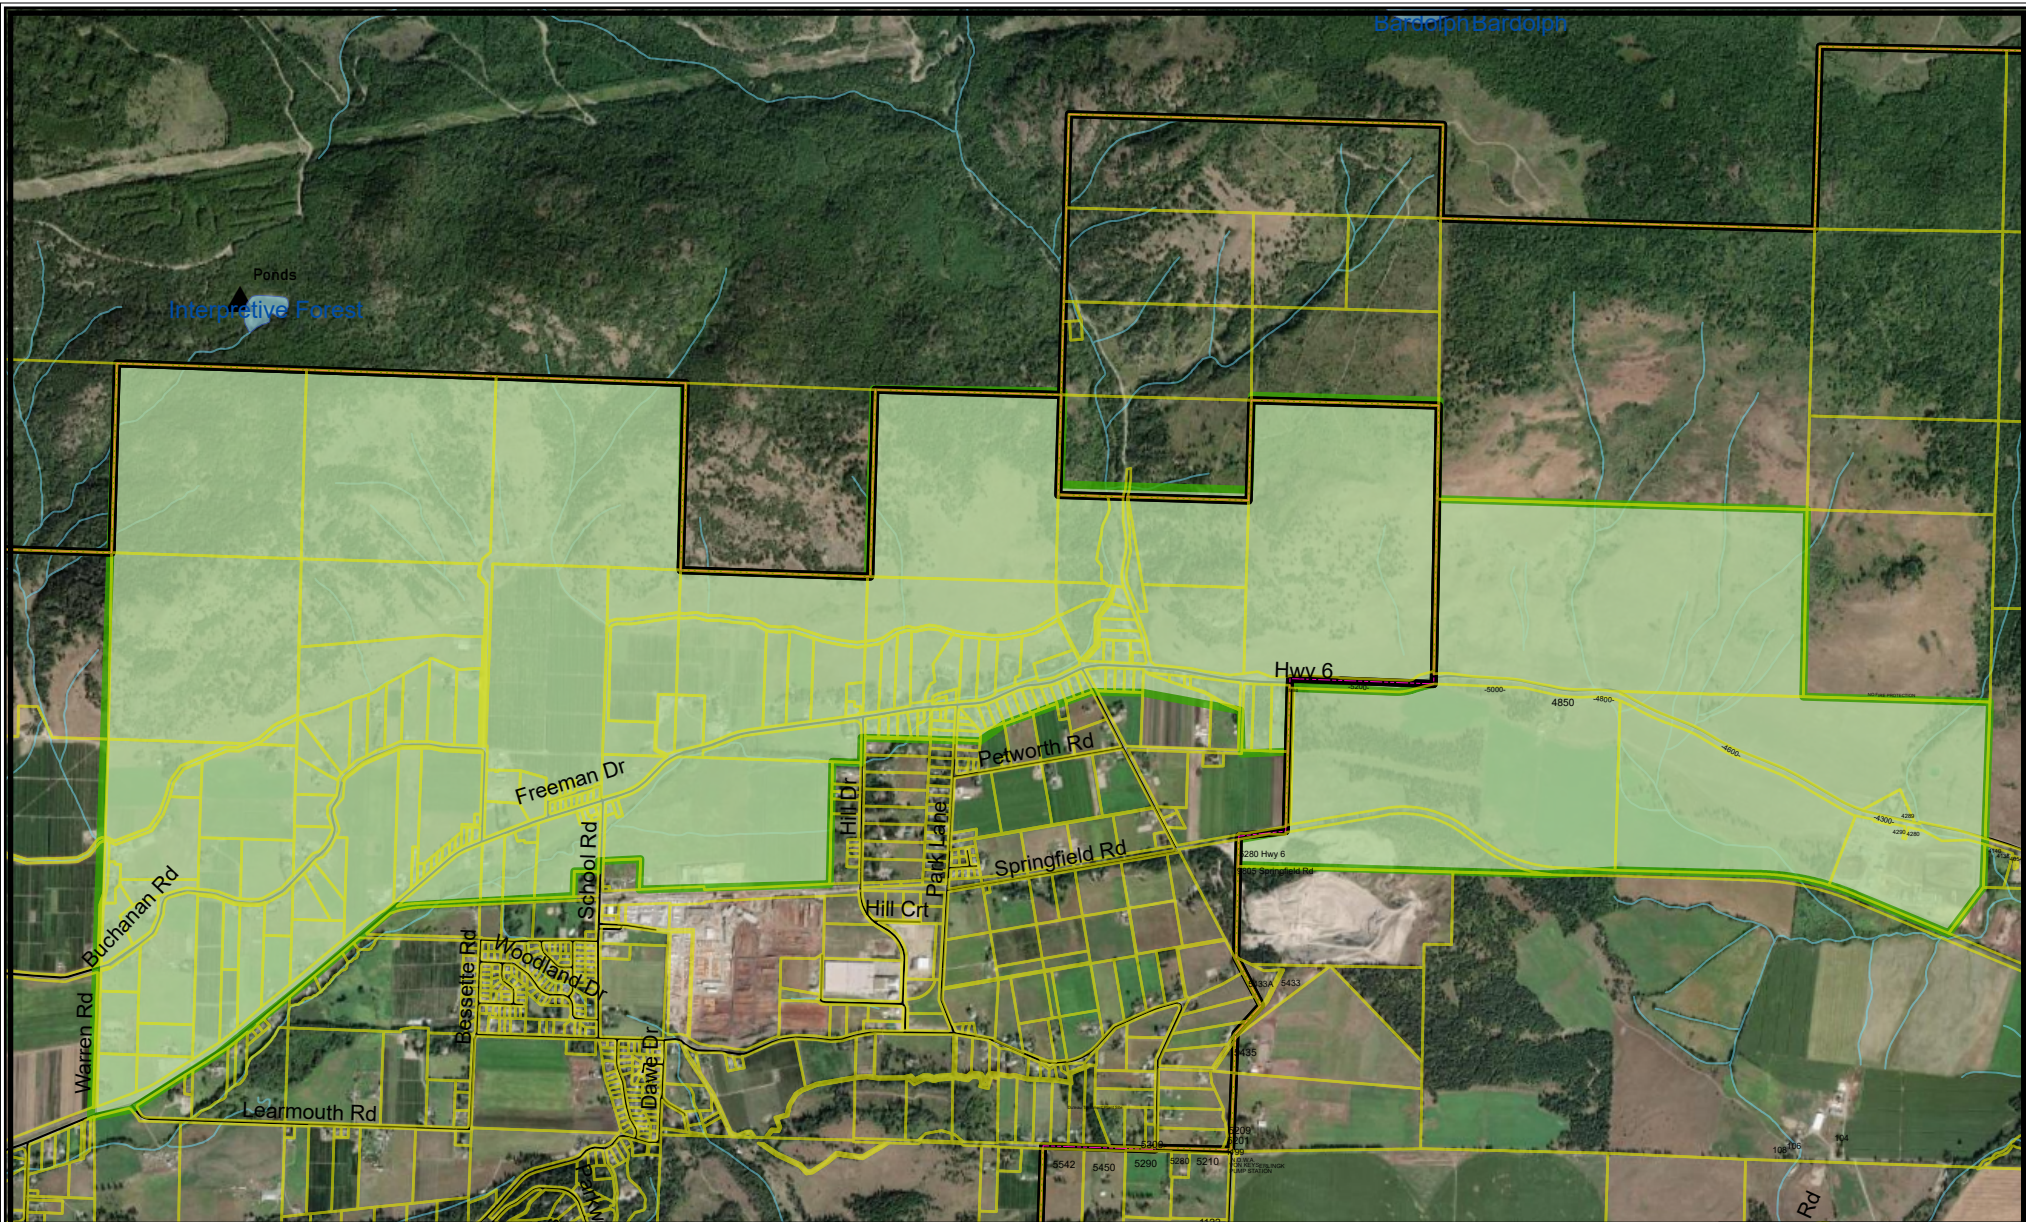

Though the alert has been lifted, we remind everyone to remain aware of ongoing fire activity in the region and to continue practicing fire-safe behavior. For the latest updates and safety information, please visit the [BC Wildfire Service website](#) or download the BC Wildfire App on your mobile device.

Once again, thank you to everyone who played a part in keeping our community safe.
