FOR IMMEDIATE RELEASE

Press Release #8

September 7, 2025 – 06:00 hrs

NOBLE CANYON FIRE – STATUS UPDATE 2

The Evacuation Orders and Alerts issued on September 5, 2025 by the District of Coldstream at the Emergency Operation Centre remain in effect. To see if you are in an affected area, please see the [Evacuation Order](#) and [Evacuation Alert](#) on the District website at: <https://www.coldstream.ca/emergency-notices>

If you are on EVACUATION ORDER you can register yourself for Emergency Support Services online at <https://ess.gov.bc.ca> or you can call Red Cross at 1-888-800-6493 for support. If you do not have family or friends to stay with and your home insurance does not cover your living expenses during evacuations, you may be eligible for support from the Provincial Government.

Crews continue to remain on site responding to the wildfire alongside local Fire Department and aerial resources as needed. The fire is still displaying Rank 1 behaviour, meaning a smouldering ground fire with a slow rate of spread. Aircraft may be relaying on nearby lakes for water supply. As a reminder, boaters should slow down and vacate areas where water skimming aircraft are operating, preferably moving close to the shore.

For the most current Wildfire information, please access the BC Wildfire Service site at: <https://wildfiresituation.nrs.gov.bc.ca/map> or by downloading the BC Wildfire App.

Next Update:

The next update will be issued at 6:00 pm on Sunday, September 7, 2025 or as new information becomes available.
